

Metro-West held it's annual Lk Hudson Kayak-Small Boat "Muskie/Anything that Bites" event this past Saturday (6/17/23). We had ten Kayak fisher folks in attendance. The 7am Start had clear sunny skies at temps in the upper 50's and a light breeze from the West. Gus Nelson got the pre-launch scouting report from a few ramp and bank anglers (Crappie were holding in the middle of the ramp cove and just South of the cove mouth). Anthony Oliver & Mom (Marla) got a quick launch in a two up kayak and found the cove school w/ a nice 8.5" Crappie to kick things off. By the 9:30am Fish Call I had landed (and involuntarily released) one Blue gill who didn't want his picture taken. Mo Abdulkarim had a 10" Large Mouth and Eda Kocaibrohimoglu had a nice 7" Crappie and Anthony had added several more 6.5" Blue gills. As the morning progressed the fishing died off as the wind picked up. At about 11am the wind dropped again and the bite was on. We pulled lines at Noon and everyone made it back in to load up and enjoy a picnic lunch (Thanks Michelle & Haleigh) under a shady maple grove adjacent to the ramp parking lot.

New Member **Anthony Oliver** Finished third w/ a (5) fish total catch length of 38". **Nikkie Sepulveda** finished second w/ her 5 fish total length at 41". **Fabian Sepulveda** was the big winner for the day w/ a (5) fish total catch length of 44". There were (40) fish caught, photoed & released & half a dozen that didn't make it to net. The "Big Catch" went to Anthony Oliver w/ (15) fish and Nikki & Fabian Sepulveda tied for second w/ (8) fish each. The event "Big Fish" were: Fabian Sepulveda w/ a 13.5" Large Mouth Bass & 7.25" Blue Gill and Anthony Oliver w/ a 10" Crappie. Hot Baits were Worms under Bobbers,

Crawler harnesses and Tube/Fluke Baits. Overall, it was a gorgeous day on the water w/ this “no wake/low stress” lake enjoyed by all.
